Part 4: Engagement Planning (10 minutes)	8
Reflection Questions (5 minutes)	9
Team Presentation Preparation	10

Project Stakeholder Mapping Exercise

Learning Objectives

By the end of this activity, you will be able to:

- · Identify all relevant stakeholders for a project
- · Categorize stakeholders by influence and interest levels
- Create a comprehensive stakeholder register
- Develop appropriate engagement strategies for different stakeholder types

Scenario: Campus Sustainability Initiative

Your team has been assigned to manage a comprehensive sustainability project for your CEGEP Heritage College main campus. The project aims to reduce the campus carbon footprint by 30% over the next two years and increase recycling proccess efficiency through various initiatives including:

- · Installing solar panels on the building
- · Implementing a campus-wide recycling program
- · Creating sustainable dining options in cafeterias
- Establishing student-led sustainability clubs

Budget: \$2.5 million

Timeline: 24 months

Expected Impact: 5,000+ students, 800+ staff and faculty

Part 1: Stakeholder Identification (15 minutes)

Instructions: Brainstorm and list ALL potential stakeholders who might be affected by or have influence over this project. Think broadly - consider internal and external parties.

Categories to Consider:

- CEGEP administration
- · Students and student organizations
- Faculty and staff
- · Local community
- Government entities
- · Vendors and contractors
- Environmental groups
- Regulatory bodies

Your Stakeholder List:

- 1. _
- 2.
- 3. _
- 4.
- 5. _
- 6.

You may continue the list if needed.

Part 2: Stakeholder Analysis Matrix (20 minutes)

Instructions: Plot each stakeholder on the matrix below based on their level of influence (ability to impact project success with performance) and interest (how much the project affects them).

Influence/Interest Matrix

HIGH INTEREST, LOW INFLUENCE	HIGH INTEREST, HIGH INFLUENCE
Keep Satisfied	Manage Closely
LOW INTEREST, LOW INFLUENCE	LOW INTEREST, HIGH INFLUENCE
Monitor	Keep Informed

Quadrant Definitions:

- **Manage Closely:** High influence, high interest key stakeholders requiring active management
- · **Keep Informed:** High influence, low interest keep satisfied with minimal effort
- **Keep Satisfied:** Low influence, high interest show consideration for their concerns
- Monitor: Low influence, low interest minimal effort, monitor for changes

Part 3: Stakeholder Register (15 minutes)

Instructions: Select your top 3 most critical stakeholders and complete the register below.

# Stakeholder Role/ Influence Name Organization Level (1-	Interest Key Level Concerns/ (1-5) Expectations	Engagement Strategy
---	---	------------------------

1

2

3

Part 4: Engagement Planning (10 minutes)

Instructions: For each quadrant, develop specific engagement strategies:

Manage Closely Stakeholders: • Communication frequency:
Communication methods:
Key messages:
Success metrics:
Keep Informed Stakeholders: • Communication frequency:
Communication methods:
• Key messages:
Keep Satisfied Stakeholders: • Communication frequency:
Communication methods:
• Key messages:
Monitor Stakeholders: • Review frequency: • Monitoring method:
- Monitoring method.

Reflection Questions (5 minutes)

- 1. Which stakeholders were you initially likely to overlook? Why?
- 2. How might stakeholder positions change throughout the project lifecycle?
- 3. What challenges do you anticipate in managing the "Manage Closely" stakeholders?
- 4. How would poor stakeholder management impact this project's success?

Team Presentation Preparation

Prepare a set of PowerPoint slides for 3-minute presentation covering:

- Your stakeholder mapping matrix (visual)
- Top 3 most critical stakeholders and why
- · Biggest stakeholder management challenge anticipated
- · One creative engagement strategy you developed

Submission: Submit your completed handout with PowerPoint slides and be prepared to go over your findings.
